The Mercedes-Benz G-Class - Jörg Sand 2021-11-28

Mercedes-Benz G-Class specialist Jörg Sand has written the ultimate book on this all-wheel-drive legend, from its design and development to its extraordinary and diverse career up to the present day. Very few automobiles remain as faithful in their character and appearance as the hardcore, all-wheel-drive Mercedes-Benz G-Class luxury SUV. Even when it comes to the most recent series, the W 463 A, with its technically profound changes, the designers at Mercedes have barely changed the classic look. And for good reason. From its first year, 1979, the G-Class has always been one of the very few off-road legends. Tourists, firefighters, foresters, race drivers, and boat owners all appreciate the unique qualities of this indestructible force, the "G Wagon," from Graz, Austria.

Mercedes-Benz W114 and W115 - James Taylor 2021-03-22

The W114 and W115 models were enormously successful for Mercedes-Benz, and their sales in nine years of production between 1967 and 1976 almost equalled the total of all Mercedes passenger models built in the 23 years between 1945 and the time of their introduction in 1968. There were many reasons for this success, but perhaps the most important was that Mercedes expanded the range to include a simply vast amount of variants including four-cylinder and six-cylinder petrol engines, four-cylinder diesels; saloons, coupes and long-wheelbase models. With around 200 photographs, this book features the story of the design and development of the W114 and W115 ranges. It gives full technical specifications, including paint and interior trim choices; includes a chapter on the special US variants; gives production tables and model type codes and explores the Experimental Safety Vehicles developed from these cars. Finally, there is a chapter on buying and owning a 114- or 115-series Mercedes.

Sentimental Economy - Edoardo Nesi 2022-08-09

In a warm, perceptive essay that touches on economics, fashion, literature, and politics, the Strega Prize-winning author of *Story of My People* reflects on the seismic shifts of 2020 and the diverse ways we're adapting. Attempting to make sense of the incredible upheaval of 2020—from the devastating impact of COVID-19 to the sudden loss of his father—Edoardo Nesi considers the changing global economy and its effect on our lives. He shares the stories of Alberto Magelli, a small textile entrepreneur; Livia Firth, a prominent advocate for sustainability; Elisa Martelli, a young Sangiovese winemaker; Enrico Giovannini, a leading economist and statistician; Rino Pratesi, a proud butcher from the heart of Tuscany; and more. From the overworked to the unemployed, we're all grappling with difficult questions about our current disorienting world: Will we ever feel healthy again, and what will it take to regain "normality?" What does progress mean today? Have science and technology let us down? What will the increased prevalence of remote working mean for our cities, and for our lifestyles generally? Deftly weaving together the personal and the economic, Nesi takes us on a fascinating journey to understanding.

Factory 19 - Dennis Glover 2020-11-03

We're told that the future will be brighter. But what if human happiness really lies in the past? Hobart, 2022: a city with a declining population, in the grip of a dark recession. A rusty ship sails into the harbour and

begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city's residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA's owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He's going to defeat technology's dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. 'Like Orwell, of whom he has written so brilliantly, Dennis Glover's work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times.' —Don Watson 'Savagely hilarious and unlike anything else you'll read this year. It boils with the anger of the present moment.' —Rohan Wilson

It examines the response of the civil service to the threat of partition, World War, the emergence of the revolutionary forces of Dáil Éireann and the IRA through to the Civil War and the Irish Free State. Questioning the orthodox interpretation of evolution rather than revolution in the administration of the State it throws new light on civil service organization in British-ruled Ireland, the process whereby Northern Ireland came into existence, the Dáil Éireann administration in the War of Independence, and civil service attitudes to

the new Irish Free State. Based on a wide range of new sources, the book is of interest to undergraduate and postgraduate students of Irish, Imperial and Commonwealth history and of post-colonial, governance and political studies as well as a reader with an interest in the role of the State in the process of decolonisation in the 20th century.
