How to Preach the Miracles - John E. Sumwalt
2007

Because modern culture explains the world through scientific rationalism, many in our pews are skeptical about miracles -- and those who do speak of miracles are often seen as purveyors of superstition and magical thinking. So what can the preacher do when discussing the resurrection and the other miracles recorded in scripture? Through a combination of rich biblical commentary and accounts of contemporary miracles, this book demonstrates that the answer is to tell stories of the mysterious, saving presence of God -- the realm in which Jesus did his miracle work. Sumwalt brings a storyteller's perspective to nine miracle passages from Cycle A of the Revised Common Lectionary.

Intellectual Populism - Paul Stob 2020-04-01

In response to denunciations of populism as undemocratic and anti-intellectual, Intellectual Populism argues that populism has contributed to a distinct and democratic intellectual tradition in which ordinary people assume leading roles in the pursuit of knowledge. Focusing on the Gilded Age and Progressive Era, the decades that saw the birth of populism in the United States, this book uses case studies of certain intellectual figures to trace the key rhetorical appeals that proved capable of resisting the status quo and building alternative communities of inquiry. As this book shows, Robert Ingersoll (1833-1899), Mary Baker Eddy (1821-1910), Thomas Davidson (1840-1900), Booker T. Washington (1856-1915), and Zitkála-Šá (1876-1938) deployed populist rhetoric to rally ordinary people as thinkers in new intellectual efforts. Through these case studies, Intellectual Populism demonstrates how orators and advocates can channel the frustrations and energies of the American people toward productive, democratic, intellectual ends.

Time Out - Emma Murray 2020-05-26

'Brilliantly witty and marvellously observed...'
Cathy Kelly 'It's just a phase,' they said. 'These are the happiest years of your life,' they said...
Mother of one and professional writer Saoirse (pronounced Seersha, not Searcy - thanks a bunch Game of Thrones!) is still adjusting to the demands of motherhood, four years after the birth of her daughter, Anna. Living in the claustrophobic London suburb of Woodvale, and being surrounded by passive-aggressive mum-wars, isn't helping. Neither is her increasingly pent-up anger at her once-perfect husband. Her only comrade in arms, best friend Bea, is the one thing keeping her sane. When Saoirse's agent asks her to pitch for a book, she is horrified to discover the topic is motherhood. How can she possibly write a 'warts and all' account of being a mother without giving away what it's really like? Laugh-out-loud funny, painfully well-observed, but with an unmistakable warmth and unforgettable characters, this is the perfect read for anyone who desperately needs a break! The novel may or may not have been inspired by real life... For fans of Motherland! Praise for Emma Murray: 'Emma Murray's Time Out is a brilliantly witty and marvellously observed novel about young motherhood when there's always someone ready to tell you that you're doing it all wrong.' Cathy Kelly 'Emma tells it how it is with real honesty, and it made me laugh out loud.' Janet Hoggarth 'Witty, fun, beautifully-written. Very highly recommended. Excited to see what comes next from Emma Murray.' Jessica Redland
What readers are saying about Time Out: 'Time Out was exactly what I needed right now, it's Hilarious, Witty, Brilliantly Written, Authentic, Compelling, Uplifting and so very relatable. The characters are superbly written, and I really hope we get to read more from Saoirse.' 'This book is a reminder of the importance of a support system: old friends, new friends, parents, and sometimes even a kind word from a stranger.' 'I really related to the Saoirse, the main character in this book. I loved her humour, her insecurities, her strengths, her flaws and of course most importantly how she formed a fantastic friendship over a morning bottle of Prosecco.' 'Emma Murray has written a 5-star 'how-to' book on being part of the village ... 'it

takes a village to raise a child' but it also takes that village to raise up a mom!' 'A fabulous read that had me hooked and also made me feel glad that my children were born prior to the arrival of Facebook and social media. But a refreshing read and one I would definitely recommend.'

Le Corbusier. Le Couvent Sainte Marie de La Tourette / The Monastery of Sainte Marie de La Tourette - Philippe Potié 2015-04-24

in1952 Le Corbusier was commissioned "to dwell in the silence of men of prayer and study and to construct a church for them". The result was his impressive Convent of La Tourette, marking a significant step in modern religious architecture.

Beginning with the rectangular form common to the Cistercian monastic tradition, he created a building whose stark form contrasts beautifully with the organic elements of the interior court and the grasslands surrounding it. The church itself is a model of simplicity, the cement has been left rough and the well located sources of light evoke a feeling of silence and reflection. The order's precept of prayer, study and reflection is aptly mirrored in the architecture. Like the other Le Corbusier Guides published by Birkhäuser, this volume provides a wealth of plans, details, photographs and information on this building which today is also a conference centre.

Pleasure the Basic Need of Human - R. N. Sahani 2016-04-08

There is a very big misconception in people that only talented and fortunate people are successful in life. But the fact is that even an average person can attain success owing to their focused and consistent effort. Most of the prominent entrepreneurs of the world have always had a very big vision in their mind. A real entrepreneur always provides satisfactory resources and amenities to his large number of employees and those employees return their full time, energy and talent for the development of the organization as a whole. Many people believe that God writes our destiny. But God doesn't make anyone rich and poor. The almighty God can never do such injustice to human. We are creating our destiny knowingly or unknowingly by our habitual patterns thinking and behaving. Dare to take responsibility of your destiny, and start working for your pleasure. Align your dream, desire and belief in one direction.

Genetic Criticism - Dirk Van Hulle 2022-02-24

In Genetic Criticism, Dirk Van Hulle introduces the study of creative processes to an Anglophone audience. As a method in the study of literary writing processes, genetic criticism is also a reading strategy. The idea behind this book is to introduce this strategy to a broader audience, from interested readers and graduate students to early career researchers and literary critics. In literary studies, it is often obvious that a particular work somehow seems to hit a nerve, but more challenging to pinpoint exactly why it 'works'. This book therefore starts from a clear, basic assumption: knowing how something was made can help us understand how and why it works. This strategy is at the basis of many disciplines, including art history. By means of X-ray technology or hyperspectral imaging, it is possible to look at a painting as a multilayered object with not only spatial dimensions, but also a temporal one. This temporal dimension is the

core of the reading strategy introduced in this book. Note books, marginalia, manuscripts, and typescripts (even if one works with scans) give a concrete dimension to literature, which is a helpful reading strategy for many students. On the one hand, this involves concrete, transferrable skills such as aspects of transcription and digital scholarly editing. On the other hand, it also involves more abstract theoretical issues relating to matters of authorship, collaboration, authority, agency, intention and intertextuality.
