Sudden Storms - Marcia Lynn McClure 2011
Rivers Brighton was a wanderer-having nothing and belonging to no one. Still, by chance, Rivers

found herself harboring for a time beneath the roof of the kind-hearted Jolee Gray and her remarkably attractive yet ever-grumbling brother, Paxton. Jolee had taken Rivers in, and Rivers had stayed. Helplessly drawn to Paxton's alluring presence and unable to escape his astonishing hold over her, however, Rivers knew she was in danger of enduring great heartbreak and pain. Paxton appeared to find Rivers no more interesting than a brief cloudburst. Yet the man's spirit seemed to tether some great and devastating storm-a powerful tempest bridled within, waiting for the moment when it could rage full and free, perhaps destroying everything and everyone in its wake-particularly Rivers. Could Rivers capture Paxton's attention long enough to make his heart her own? Or would the storm brewing within him destroy her hopes and dreams of belonging to the only man she had ever loved?

Invisible Storm - Jason Kander 2022-07-05
NEW YORK TIMES BESTSELLER “A truly special book. This combination of honesty, thoughtfulness, urgency, and vulnerability is not common in leaders, and Jason demonstrates boundless occupancy of all of these traits.” - Wes Moore, New York Times bestselling author of *The Other Wes Moore* From political wunderkind and former army intelligence officer Jason Kander comes a haunting, powerful memoir about impossible choices—and how sometimes walking away from the chance of a lifetime can be the greatest decision of all. In 2017, President Obama, in his final Oval Office interview, was asked who gave him hope for the future of the country, and Jason Kander was the

first name he mentioned. Suddenly, Jason was a national figure. As observers assumed he was preparing a run for the presidency, Jason announced a bid for mayor of Kansas City instead and was headed for a landslide victory. But after eleven years battling PTSD from his service in Afghanistan, Jason was seized by depression and suicidal thoughts. He dropped out of the mayor’s race and out of public life. And finally, he sought help. In this brutally honest second memoir, following his New York Times best-selling debut *Outside the Wire*, Jason Kander has written the book he himself needed in the most painful moments of his PTSD. In candid, in-the-moment detail, we see him struggle with undiagnosed illness during a presidential bid; witness his family buoy him through challenging treatment; and, giving hope to so many of us, see him heal.

Ships and Shipwrecks - Richard Gebhart

2021-12-01

From the day that French explorer Robert Cavelier de La Salle launched the Griffin in 1679 to the 1975 sinking of the celebrated Edmund Fitzgerald, thousands of commercial ships have sailed on the vast and perilous waters of the Great Lakes. In a harbinger of things to come, on the return leg of its first trip in late summer 1679, the Griffin disappeared and has never been seen again. In the centuries since then, the records show that an alarming number of shipwrecks have occurred on the Great Lakes. If vessels that wrecked but were later repaired and returned to service are included, the number certainly swells into the thousands. Most did not mysteriously vanish like the Griffin. Instead, they suffered the occupational hazards of every lake boat: collisions, groundings, strands, fires, boiler explosions, and capsizes. Many of these disasters took the lives of crews and passengers. The fearsome wrath of the storms that brew over the Great Lakes has challenged and defeated

some of the staunchest vessels constructed in the shipyards of port cities along the U.S. and Canadian lakeshores. Here Richard Gebhart tells the tales of some of these ships and their captains and crews, from their launches to their sad demises—or sometimes, their celebrated retirements. This volume is a must-read for anyone intrigued by the maritime history of the Great Lakes.

A World Lost - Wendell Berry 2008-05-28

In this, Wendell Berry's fifth novel and ninth work of fiction, Andy Catlett revisits his own ninth year in the summer of 1944 when his beloved uncle is shot and killed by the surly and mysterious Carp Harmon. This is his Uncle Andrew, after whom the boy is named, someone who savored "company, talk, some kind of to-do, something to laugh at." Years later, still possessed by the story, Andy seeks to get to the bottom of all this, to understand the two men and their lethal connection. "Berry deftly balances Andy's investigation into the town's past with an equally moving realization not only of the sustaining value of memory but of the manner in which they are shaped in enduring

ways by what they love . . . a sharp portrait of a town nursing its secrets over decades." —Kirkus Reviews

Modern society is ill. Many people sit in their work cubicle, in jobs that are stressful and unfulfilling. With a boss they don't like. With a mortgage they cannot afford. With relationships that aren't all they could be. With a work-life balance that's all work and no life. It's no wonder there's a stress and depression epidemic in the Western world. Many people have simply lost themselves. Is this you? If so, life doesn't have to be like this. You can choose to live life in a different way. Most people will say that they want more than anything to be themselves and to make a difference. This book is about how to be true to yourself in a society that more than ever pushes us to disguise who we are, so we

end up pretending to be who we're not. How can I find a way to be myself? Join Mark Eyre to find your own real me, and along the way, pick up some practical strategies and approaches to help you express who you really are. It's time to join the journey of a lifetime, and in the words of George Eliot, to "be who you might have been." *The Selected Poems of Wendell Berry* - Wendell Berry 1998

Storm from the East - Milton Viorst
2007-12-18

America's engagement with the Arab world stretches back far beyond the Iraq wars. According to Milton Viorst, the current conflict is simply the latest round in a 1,400-year struggle between Christianity and Islam, in which the United States became a participant only in the last century. Today, the Bush Doctrine aims to free the Arab peoples from political oppression and create a democratic Iraq. So why are Arabs, and Iraqis in particular, so suspicious of our efforts? The explanation, Viorst says, is simple: "What the American

leadership has miscalculated, or simply dismissed, is Arab nationalism.” In *Storm from the East*, Viorst offers a balanced, lucid, and vital history of America’s uneasy relationship with the Arab world and argues that brutal conflict in the region will continue until the West, with the United States taking the lead, honors the Arabs’ insistence on deciding their own destiny. Viorst examines the long struggle of the Arab world to overthrow Western hegemony. He explores the Arab experiences with democracy and military despotism; Nasserite socialism in Egypt and Ba’athism in Syria and Iraq; tribal monarchy in Saudi Arabia and Jordan; guerrilla warfare waged by the Palestinians; and, finally, Islamic rebellion culminating in Osama bin Laden’s extremist al-Qaeda. All have the same goal: the liberation of the Arabs from foreign domination. *Storm from the East* is a powerful work that, like no other, limns the political, religious, and social roots of Arab nationalism and the present-day unrest in

the Middle East.

Rising Tide - John M. Barry 2007-09-17

A New York Times Notable Book of the Year, winner of the Southern Book Critics Circle Award and the Lillian Smith Award. An American

epic of science, politics, race, honor, high society, and the Mississippi River, *Rising Tide* tells the riveting and nearly forgotten story of the Great Mississippi Flood of 1927. The river inundated the homes of almost one million people, helped elect Huey Long governor and made Herbert Hoover president, drove hundreds of thousands of African Americans north, and transformed American society and politics forever. The flood brought with it a human storm: white and black collided, honor and money collided, regional and national powers collided. New Orleans's elite used their power to divert the flood to those without political connections, power, or wealth, while causing Black sharecroppers to abandon their land to flee up north. The states were unprepared for this disaster and failed to support the Black community. The racial divides only widened when a white officer killed a Black man for refusing to return to work on levee repairs after a sleepless night of work. In the powerful prose

of *Rising Tide*, John M. Barry removes any remaining veil that there had been equality in the South. This flood not only left millions of people ruined, but further emphasized the racial inequality that have continued even to this day.

Storm Lake - Art Cullen 2020-01-21

Art Cullen's answer is complicated and honest. In truth, Iowa is losing ground. The Trump trade wars are hammering farmers and manufacturers. Health insurance premiums and drug prices are soaring. That's what Iowans are dealing with, and the problems they face are the problems of the heartland. In this candid and timely book, Art Cullen—the Storm Lake Times newspaperman who won a Pulitzer Prize for taking on big corporate agri-industry and its poisoning of local rivers—describes how the heartland has changed dramatically over his career. In a story where politics, agriculture, the

environment, and immigration all converge, Cullen offers an unsentimental ode to rural America and to the resilient people of a vibrant community of fifteen thousand in Northwest Iowa, as much survivors as their town.
